Beautify the Bucket Competition Logistics

Purpose

The Beautify the Bucket Competition is designed to allow citizens to take an active role in beautifying Galveston's beaches in a way that also encourages better stewardship behaviors in others. Marine Debris is a serious threat to organisms in our coastal and marine ecosystems. While the three "R's" (Reduce, Reuse, Recycle) will help prevent marine debris all throughout the watershed, proper use of trash receptacles can reduce debris directly from the beach. By "Beautifying the Bucket" you can enhance the aesthetics of the beach and also draw attention to these receptacles to promote their use.

Themes

Themes for this competition include the following:

- Ocean Organisms
- Marine Debris
- Coastal and Marine Ecosystems
- Galveston Recreational Activities

Judging is based on group type rather than by theme.

Group Size/Age

- We will rate buckets with similar aged participants so we want to know the age of the artists! Please circle if most participants are less than 11 years, between 12-18 years, or over 18 years old. If your group is a mixture of ages, please circle family.

How to Pick-Up/Return Your Bucket

Signatures/Logos

- Your signature should take up no more than a **3-in wide ribbon** around the barrel.
- Company logos or acknowledgements must also follow the signature guidelines

Materials

- You will be responsible for supplying the beautification materials (paint, etc.)
 - Please DO NOT adhere other materials to the trashcan.
- The trash receptacles are made from a similar material to standard home rain barrels. The following site has some great suggestions and guides for preparing the surface
 - <https://youtu.be/BVtLTkGO3zs>
- Please use paint made for use on plastics
- *The best way to ensure paint adheres to the barrel is **to sand the surface** with fine-grit sandpaper before painting. Otherwise the paint tends to peel from the smooth surface.*
- Please spray barrel with a clear coat after painting to ensure the integrity of your art.

In-Kind Support

- Please keep track of the **hours** you work on the "bucket", the **amount you spend** on the materials, and the **mileage travelled** to pick-up/return your "bucket"
