

UNDERWATER HOA

A PARTICIPATORY ART PROJECT BY XAVIER CORTADA

The *Underwater HOA* is a socially engaged art project that aims to generate awareness about sea level rise and engage neighbors in taking action by providing a space where they can collectively address the impacts of sea level rise and climate change, as part of our World Ocean Day Festival activities.

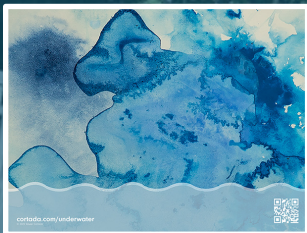

Artist Boat invites you to join us for this **FREE** Eco-Art Workshop intended for Coastal Homeowners to learn how climate change and sea level rise may affect you and to guide you through making an elevation yard sign.

**Reserve
Your spot**

Join us for food,
drinks, fun, and the
Underwater HOA
Workshop!
